**BEGINNING OF NEW INTERVIEW**

BA Do you mind if I ask a few questions first?

JL You can ask right.

BA Um I'm just a little nervous I mean what's this you know I can't think of any particular (inaudible) I've got a couple (inaudible) what I mean well what am I

JL What we're what we're doing I mean you you're obviously here for a reason right? Did, did someone call you down here or did you show up on your own or what, what brings you here?

BA My friend called me up.

JL Which friend?

BA Chad

JL Chad called you up and asked you to come down or.

BA No he ah he called me at work we are supposed to lift and he said that he had a call from the police um I got out in the middle of a meeting ah and his ex-wife showed up at work I guess after he called her I'm not sure ah but Chad's pretty shaken up about something and I went to her house. And she changed out of her clothes she worked at the hospital or whatever and she got a call from someone I believe a DC filer whatever.

JL Hm

BA And she started balling and that's when I heard about what happened.

JL Yeah okay

BA And here I am.

JL What at what we're doing is um obviously there's been a death ah today. Um 18 month old ah child ah died. That's why that's why we're all here. We're ah we're investigators it's our job to figure out what happened. Um it's like putting a big puzzle together pieces of the puzzle um the medical examiners office they're the people who look at the child and they've got to first of all determine whether it was a natural death, and unnatural death you know a Sid's death a homicide and all that. We we're extensions of the medical examiners office we're fact finders for them. What we do is we go out and they do the medical side of things.

They are going to do the autopsy they're going to be ah looking around in the body to try to figure out a reason. And it's our job to do the leg work part of it. Ah we're speaking to people obviously the people who were ah with the child when it died before the child anyone who came in contact with the child and ah you know could have had and we don't know you know we try not to ah speculate here before we have all the facts in as far as people that either had something to do with the death. Or simply witnessed it of another person or in another instance um simply just with the person when they died. Like I said that autopsy the medical examiner process has not been done yet um so ah we're still trying to figure out exactly what caused this child to die. A lot of people get nervous and worry when the police ah show up.

BA Yeah

JL Yeah you're pointing a finger at me or something like that.

I'm not worried about that I just I'm, I'm never talked to individuals like yourselves. Um I just wanted to question is this do I have to answer everything that you ask?

JL You don't as far as I'm concerned you are here um voluntarily.

BA Yeah

JL You have shown up to help us out. People and we can't figure out what happened to this little kid.

BA Not that, not that I'm trying to hide anything I just don't.

JL Right unless we have cooperation's from people and you know and we ask them questions and they answer them and then there's a bunch of teams like us out there. There's probably like 5, 5 other teams. Ah detective teams out there and they're talking to people and at the end of the day we all get together and have this big old meeting and everybody shares their, shares their information and at the end we talk to the medical examiner and we figure out what happened. So and I guess where you came in and you know maybe you have some information maybe you have some knowledge maybe you don't. Maybe it was a giant waste of everyone's time. Ah I guess we don't know until ah we ask any questions so.

Okay

JL As far as you having to be here. Absolutely not um you're not a ah you're not a suspect or anything like that. Ah we're not reading you any Miranda Rights, Miranda warnings. What we ah read to ah you know suspects in a situation ah you know you have to advice them of

their rights. We're not reading you that so therefore you know you know you're not the focus of my investigation or anything like that.

BA Hm, hm

JL If I do ask you a question Bruce that you don't want to answer it's ah certainly fair and reasonable to tell me that I'd rather not answer that. I'm not going to do anything I'm not going to get bent out of shape. Um I'm not going to hit the roof we're not going to push you to make you answer it. And I go on to the next, next question and it's all well and good.

BA Okay

JM Or most of the time they get involved and there's different situations you know I guess when you talk about abuse or something like that there's abuse and there's neglect. And sometimes a neighbor calls up because they hear a parent ah either spanking their kid or something like that so they'll call up you know DCYS and DCYS investigates.

BA All the times that I've been at Chad's house I've never seen neither of them touch that I mean not touch them physically.

JL Right right did you ah know Chad's first wife as well?

JM Whatever okay. Um

BA I'm not getting offended by you

JM No I know. Um

BA I wouldn't lie to you. I don't remember.

JM When do you think you asked him though did you ask him the first time?

BA Yeah

JM The forth time.

BA It was probably the first time.

JM The first time your sure the first time? And ah

BA (inaudible)

JM And ah did you ask him? You asked him?

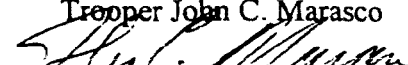

BA I believe I asked him or Amanda that's what I mean I honestly don't recall exactly what and I'm actually I don't know if it was me it might have been my girlfriend was right there at the time and I, I noticed it. It was either myself or my girlfriend that had asked either her or him and whatever was said about how it happened.

JM Now

BA I'm not dumb I didn't think.

JM What about for the next couple weeks though I mean you see it again you know and again, and again, and again you see it a couple more times in the weeks to follow. Um it must have been in the back of your mind you must have wanted to ask? I think you might of?
