I will say this ~~the~~ Casidy was Clumsy and not a very active child she was very quiet and did not walk around like you would suspect a little one to do. ~~One time though~~ ^{she} I would tell you that I told Mandy that the baby seemed weird and she did not seem to know what she was doing all the time. One time at our house she got in to wind deck's and I assumed she had swallowed some so I tried to get her to spit it out but other than that she was very quiet and kind of studd there up against the wall in less you put her in bed and even then some times she would get out of bed and stand up against the wall I was told by Chad that she would go and get put in the corner if she was bad so we that that she was so us to this and this would happen all the time I would say there was many times that ~~the~~ we should have thought twice about the brasses on her face because my next store neighbor so he face and that that it was bad and Stanley Staly who worked for me said that it look like she was ~~not taken care of~~

I believe that one night it could be During a day in the last week or so Mandy called me and Jen and told us Cassidy was walking funny because she said Chad did something to Cassidy leg by pulling her or picking her up by it. we still watched Cassidy for them because. Mandy had to work at Old Navy store. She told us she was going to get a baby sitter but had to wait because Cassidy had brused again. Mandy told us that Chad had hit her because she was bad. ME and Jen should have probably done something but you would have never thought it was this bad. Cassidy came over a few days ago and could hardly walk that day the only problem I say was she could not walk around that day she was in bed most of the day the one thing that was wierd was she must have gut cut sometime because the phone rang and I got up and ran to get the phone I was in the living room and Cassidy was in the bed room but when I went around the corner I tripped over her because she was just standing there

Later I went to check the mail and out side on the deck I brought the mail in the house and walked in to the bed room without I looked at Cassidy and could tell there was something wrong with her so I took the Blankets off of her and tried to wake her up but I got no reaction from her I did not know what to do I felt her pulse and could feel it I thought that she was doing the something Chad said she did last night but it was worse she was not breathing so I tried plunging her stomach with my hands to get her to breathe but she wasent coming to I called Jen I called Chad and called Mandy I could not get a hold of Chad Jen did not know what to do and I could not get a hold of Mandy so I called 911 and I tried to wake her up by slashing water on her face she would not come to I rain her out side for the ambulance and the Cop's came and at that time we both tried to get her to come to,
